

# Year-round safe water

Sand Dams Worldwide is working with local partners to support communities in East and Southern Africa to build Sand Dams.

**Rotary Club of London** are proud to support this initiative with Rotary Clubs worldwide.

Since 2002, Sand Dams Worldwide has enabled the construction of over 1,000 sand dams which are now supporting over 1 million people living in drylands to transform their own lives with lifelong access to water, food security, and climate change resilience.

**Our Vision is Global Grant and Programme of Scale Grant**
